EXPERIENCE

UPMC Shadyside Pittsburgh, PA — Medical Technologist

MARCH 2021 - PRESENT

Performed STAT testing in hematology and the Hillman Cancer Center. Assisted with bone marrow biopsies at bedside.

Cleveland Clinic, Cleveland, OH — *Medical Technologist*

JUNE 2017 - AUGUST 2020

Performed daily STAT and routine hematology, urinalysis, and coagulation tests. Periodic maintenance on Sysmex and Siemens analyzers.

Was responsible for monitoring turn-around-time data for patients suspected of a stroke. Compiled quality incident report data from 3 years, studied trends, and presented trends to the Medical Director to show where work can be streamlined.

West Virginia University, Morgantown, WV — *Resident Advisor*

AUGUST 2014 - MAY 2016

Helped first year students in on-campus housing adapt to college life. Planned and implemented different education programs for the dorm.

EDUCATION

West Virginia University, Morgantown, WV — *Bachelor of Science in Medical Laboratory Science*

AUGUST 2013 - MAY 2017

Eastern University, St Davids, PA — *Master of Science in Data Science*

OCT 2020 - DEC 2021

PROJECTS

GitHub: github.com/malmcb

Examples of work done during my Master's degree can be found here.

SKILLS

Python, R, SQL, Qlik, Tableau

Machine Learning, Tensor flow, Keras

Data Processing

CERTIFICATION

American Society for Clinical Pathology, Medical Laboratory Science

ID: 25640777

Taken 2/10/2018
